

Customizing my Journey Instruments FC522LTD
J.K. Davis (Summer 2019)

1.Masking and marking...

2. First cut the hardest...

3. No turning back...

4. Looks like a cut-away??

5. Electronics removed by local guitar repair shop...

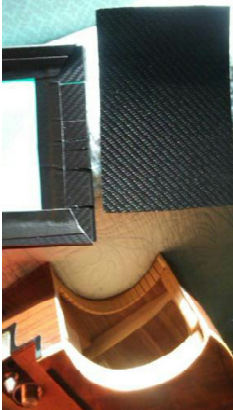

6. Cut-away cover materials considered...

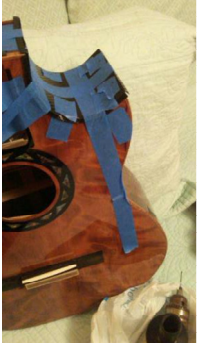

7. Gluing kerfling into place...

8. Final prep...

9. Initial cover placement...

10. Screwed into place

11. Painting over fret markers...

12. VERY successful road test in Gwangju,
South Korea, August 2019...
The final product proves itself to be a fantastic-
sounding acoustic, cut-away guitar!
